COMPANY OVERVIEW

VISION

Our Vision is to become a leading provider of integrated Operations & Maintenance Services to the Oil & Gas and industrial sectors while upholding the highest quality standards. We envision ourselves at the forefront of the industry, driving innovation and setting new benchmarks in delivering exceptional services that consistently exceed our client's expectations. By seamlessly integrating operations and maintenance, we aim to streamline our client's processes, enhance efficiency, and maximize the value they derive from their assets.

MISSION

At the heart of our mission is a customer-centric approach. We strive to understand our clients' unique objectives, challenges, and requirements, and work closely with them to develop customized solutions that deliver tangible results. By prioritizing our clients' best interests, we build enduring relationships based on trust, transparency, and mutual success.

COMPANY OVERVIEW

ZMB Oil and Gas Technology is a leading consulting and project management company that specializes in providing comprehensive services for onshore drilling, completion, and workover operations in the oil and gas industry. With a strong presence in Saudi Arabia, ZMB Oil and Gas Technology has established itself as a trusted partner for clients seeking reliable and efficient solutions.

Our company brings together a team of highly skilled professionals with extensive experience in the oil and gas sector. From geologists and drilling engineers to project managers and technical experts, our diverse team possesses a wide range of expertise necessary to handle complex drilling projects in Saudi Arabia's challenging terrains.

At ZMB Oil and Gas Technology, we understand that every project is unique, and we tailor our consulting services to meet the specific needs of each client. Whether it's a greenfield drilling project or a workover operation to enhance existing well production, our experts provide comprehensive assessments, strategic planning, and technical recommendations to ensure optimal project execution.

OUR VALUE

Customer reviews play a significant role in shaping our business strategy and service offerings. They provide valuable insights into market trends, emerging needs, and evolving customer preferences. By analyzing the reviews collectively, we gain a comprehensive understanding of our client's expectations and can align our operations and service portfolio accordingly.

Our commitment to incorporating customer feedback extends beyond simply addressing individual concerns. We leverage the collective insights gathered from reviews to identify systemic improvements that can enhance the overall customer experience. This proactive approach allows us to continuously refine our processes, optimize resource allocation, and introduce innovative solutions that directly address the evolving needs of our clients.

COMPANY BENEFITS

The expertise and professionalism of our highly skilled professionals are often highlighted as a significant benefit. Our team comprises industry experts with deep knowledge and experience in the Oil & Gas and industrial sectors. Their technical proficiency, coupled with a customer-centric approach, enables us to deliver tailored solutions that align with our client's unique requirements. Customers appreciate the value our experts bring in terms of problem-solving, strategic insights, and proactive recommendations to optimize their operations.

WHAT TO EXPECT

WHAT YOU CAN EXPECT FROM US

Expertise and Professionalism: Our team consists of highly skilled professionals with deep expertise in the Oil & Gas and industrial sectors. When you partner with us, you can expect to work with industry experts who understand your unique challenges and requirements. Our professionals bring a wealth of knowledge, technical proficiency, and strategic insights to the table, ensuring that you receive the highest level of expertise and professionalism throughout our engagement.

WHAT WE EXPECT FROM YOU

In order to ensure a successful partnership and achieve mutual success, there are certain expectations we have from you as our valued client. We expect open and transparent communication, providing us with a thorough understanding of your objectives, challenges, and requirements. It is crucial that you actively engage with us, providing timely feedback, sharing relevant information, and collaborating closely throughout the engagement. We also expect a commitment to the agreed-upon timelines and deliverables, as well as the willingness to actively participate in the decision-making process. By working together as a team, we can maximize the value we deliver and achieve the desired outcomes.

OUR SERVICES

INSTRUMENTS & CONTROL DIV. PROJECTS DELIVERY

- Automation & Control systems
- Weighing system
- Fuel Loading & Unloading inventory solution
- Instrumentation Trunkey projects
- Project Commissioning & Testing Services
- Flow Measurement & Flow Meters Services
- Instrumentation & Analyzer Installation Services
- Pumping Panel & Variable Frequency Drive (VFD)
- PLC and SCADA design & Programming
- Energy saving and management systems
- Analyzers shelters installation & commissioning
- Testing & Commissioning Ins+Ele+Mech projects

ELECTROMECHANICAL CONTRACTING

- Tanks fabrication with automation system
- Steel Structure Fabrication and Installation
- Services of anchors bolts & more
- FRP AND GRP Piping works
- Sand Blasting and Painting
- Analyzers shelters manufacturing
- Structure dismantling and reinstallation

RIG MAINTAINANCE

- Sinopec Saudi Arabia TDS, Mud Pump & Rig Maintenance
- Daqing Saudi Arabia TDS, Mud Pump & Rig Maintenance
- Shengli Saudi Arabia TDS, Mud Pump & Rig Maintenance
- Hunwa Saudi Arabia TDS, Mud Pump & Rig Maintenance
- ZP DRILLING

- **Mandate** contractors, suppliers/vendors and visitors adhere to the Company's HSE policies, procedures and goals;
- **Be ready** for emergencies and other contingencies and respond promptly and effectively to any incidents or accidents resulting from our project operations.

LANDSCAPING

Landscaping is more than just planting shrubs and setting down walkways; it's the thoughtful integration of nature and man-made elements to create an outdoor space that is both beautiful and functional. Whether you're looking to create a serene garden retreat or a lively area for entertainment, landscaping offers endless possibilities to enhance your living environment. At its core, landscaping involves the design, planning, and management of land areas. Landscaping can include a variety of elements such as plants, trees, flowers, water features, patios, decks, and lighting.
