COMPANY OVERVIEW

VISION

Our Vision is to become a leading provider of integrated Operations & Maintenance Services to the Oil & Gas and industrial sectors while upholding the highest quality standards. We envision ourselves at the forefront of the industry, driving innovation and setting new benchmarks in delivering exceptional services that consistently exceed our client's expectations. By seamlessly integrating operations and maintenance, we aim to streamline our client's processes, enhance efficiency, and maximize the value they derive from their assets.

MISSION

At the heart of our mission is a customer-centric approach. We strive to understand our clients' unique objectives, challenges, and requirements, and work closely with them to develop customized solutions that deliver tangible results. By prioritizing our clients' best interests, we build enduring relationships based on trust, transparency, and mutual success.

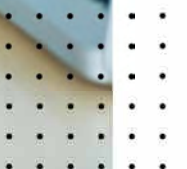

COMPANY OVERVIEW

ZMB Oil and Gas Technology is a leading consulting and project management company that specializes in providing comprehensive services for onshore drilling, completion, and workover operations in the oil and gas industry. With a strong presence in Saudi Arabia, ZMB Oil and Gas Technology has established itself as a trusted partner for clients seeking reliable and efficient solutions. Our company brings together a team of highly skilled professionals with extensive experience in the oil and gas sector. From geologists and drilling engineers to project managers and technical experts, our diverse team possesses a wide range of expertise necessary to handle complex drilling projects in Saudi Arabia's challenging terrains. At ZMB Oil and Gas Technology, we understand that every project is unique, and we tailor our consulting services to meet the specific needs of each client. Whether it's a greenfield drilling project or a workover operation to enhance existing well production, our experts provide comprehensive assessments, strategic planning, and technical recommendations to ensure optimal project execution.

OUR VALUE

Customer reviews play a significant role in shaping our business strategy and service offerings. They provide valuable insights into market trends, emerging needs, and evolving customer preferences. By analyzing the reviews collectively, we gain a comprehensive understanding of our client's expectations and can align our operations and service portfolio accordingly. Our commitment to incorporating customer feedback extends beyond simply addressing individual concerns. We leverage the collective insights gathered from reviews to identify systemic improvements that can enhance the overall customer experience. This proactive approach allows us to continuously refine our processes, optimize resource allocation, and introduce innovative solutions that directly address the evolving needs of our clients.

COMPANY BENEFITS

The expertise and professionalism of our highly skilled professionals are often highlighted as a significant benefit. Our team comprises industry experts with deep knowledge and experience in the Oil & Gas and industrial sectors. Their technical proficiency, coupled with a customer-centric approach, enables us to deliver tailored solutions that align with our client's unique requirements. Customers appreciate the value our experts bring in terms of problem-solving, strategic insights, and proactive recommendations to optimize their operations.

WHAT TO EXPECT

WHAT YOU CAN EXPECT FROM US

Expertise and Professionalism: Our team consists of highly skilled professionals with deep expertise in the Oil & Gas and industrial sectors. When you partner with us, you can expect to work with industry experts who understand your unique challenges and requirements. Our professionals bring a wealth of knowledge, technical proficiency, and strategic insights to the table, ensuring that you receive the highest level of expertise and professionalism throughout our engagement.

WHAT WE EXPECT FROM YOU

In order to ensure a successful partnership and achieve mutual success, there are certain expectations we have from you as our valued client. We expect open and transparent communication, providing us with a thorough understanding of your objectives, challenges, and requirements. It is crucial that you actively engage with us, providing timely feedback, sharing relevant information, and collaborating closely throughout the engagement. We also expect a commitment to the agreed-upon timelines and deliverables, as well as the willingness to actively participate in the decision-making process. By working together as a team, we can maximize the value we deliver and achieve the desired outcomes.

PRODUCTS

ELECTRICAL ITEMS

Electrical Materials & Equipment Supply Our Company supply wide range of electrical materials and equipment tailored to meet the highest standards of performance, safety, and reliability with cost efficiency.

Our Offerings include a comprehensive range of transformers, essential for voltage regulation and power distribution across industrial, commercial, and infrastructure projects. Supplied transformers include various types such as dry-type transformers, known for their safety and low maintenance; oil-immersed transformers, ideal for high-capacity loads; distribution transformers for local power delivery; and power transformers used in high-voltage transmission applications. In addition, customized panel boards are provided, engineered for efficient circuit management and load distribution. These include main distribution boards (MDBs), sub-main distribution boards (SMDBs), final distribution boards (FDBs), and motor control center (MCC) panels, which are critical for centralizing control of multiple motors in industrial environments, offering protection, automation, and ease of maintenance. We also deal in high range of electrical cables includes low, medium, and high-voltage cables, armored and unarmored types, control cables, and fire-resistant cables, all manufactured to ensure optimal conductivity, mechanical strength, and compliance with international safety standards. A wide selection of switches is available, ranging from standard toggle and rocker switches to heavy-duty industrial disconnects, push-button control stations, and intelligent switching systems suitable for automated operations. For safe and organized electrical connectivity, junction boxes are offered in various materials such as PVC, galvanized steel, and stainless steel, with models available for indoor, outdoor, waterproof, and explosion-proof applications. Every product supplied is thoroughly vetted through rigorous quality assurance processes to ensure dependable, long-lasting performance tailored to the specific needs of each project.

PRODUCTS

A complete electrical solution also includes specialized components such as instrumentation cables, variable frequency drives (VFDs), and a wide range of bulk electrical materials essential for large-scale project execution. Instrumentation cables are supplied in a variety of types and configurations, including shielded and armored designs, suitable for accurate signal transmission and minimal electromagnetic interference in control, monitoring, and automation systems. These cables are engineered to perform reliably in harsh industrial environments such as oil & gas facilities, power plants, and manufacturing plants, where precision and durability are critical. Variable Frequency Drives (VFDs) are provided to enable precise motor control, enhance energy efficiency, and reduce mechanical stress in applications requiring variable speed operations. VFDs are available for both low-voltage and medium-voltage systems and are compatible with a wide range of motor capacities and industrial control systems. To support all phases of electrical construction and installation, a broad selection of bulk materials is also available, including conduits, cable trays, trunking, cable glands, lugs, connectors, clamps, cable ties, earthing accessories, and fasteners. All materials are sourced to meet industry standards, ensuring long-term performance, safety, and seamless integration with electrical systems. These components play a vital role in ensuring reliability, safety, and efficiency across complex electrical installations.

MECHANICAL ITEMS

Our company is a trusted supplier of a comprehensive range of high-quality mechanical products, catering to the diverse needs of industrial and infrastructure projects. We specialize in the supply of Carbon Steel (CS) and Stainless Steel (SS) pipes, valves, gaskets, buttweld fittings, flanges, screwed fittings, socket weld fittings, grooved fittings. In addition, we offer a wide selection valves & fire safety valves designed to meet stringent safety standards across critical applications. All our products are sourced from reputable manufacturers and comply with international quality and performance standards. With a strong commitment to reliability, efficiency, and customer satisfaction, we support sectors such as oil & gas, petrochemical, water treatment, construction, and fire protection systems with durable and cost-effective piping solutions.

ELECTROMECHANICAL MACHINERY & HVAC ITEMS

Structured and efficient procurement process to ensure the availability of high-quality components that meet project specifications and industry standards. This includes sourcing reliable equipment such as motors, control panels, wiring accessories, pumps, and related mechanical and electrical assemblies from reputable manufacturers.

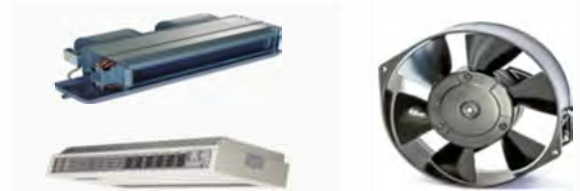

Emphasis is placed on adherence to technical requirements, compliance with safety regulations, and timely delivery to support seamless installation and operational continuity. Effective coordination between suppliers, engineers, and project teams ensures that all materials are verified, documented, and delivered in accordance with the project schedule and quality control procedures.

POWER TOOLS & PNEUMATIC TOOLS

As a dedicated material supplier, our company provides a comprehensive range of high-quality power tools and pneumatic tools designed to support diverse industrial, construction, and maintenance applications. We source from reputable global manufacturers to ensure durability, precision, and compliance with international safety standards. Our offerings include electric drills, grinders, cutting machines, impact wrenches, air compressors, pneumatic Nailers, and other specialised tools engineered for performance and reliability. With efficient logistics, competitive pricing, and a strong commitment to customer satisfaction, we deliver the right tools at the right time, empowering our clients to achieve operational excellence across their projects.

LIFTING ITEMS

We are an authorized distributor of Safe & Secure Trading Company, specializing in premium material handling and lifting equipment including shackles, chains, ropes, pulleys, and related products. With a fully-stocked warehouse on the Dammam-Khobar Highway and a manufacturing facility in Dammam 1st Industrial Area, we offer both immediate product availability and custom-engineered lifting solutions tailored to your needs. Our commitment to rigorous quality assurance and international safety standards ensures that clients across all industries can execute their lifting operations with complete confidence and reliability.

FIRE FIGHTING AND SAFETY ITEMS

As a trusted material supplier, we are able of providing a comprehensive range of firefighting and safety items designed to support industrial, commercial, and construction environments. Our portfolio includes high-quality fire extinguishers, fire hoses, hydrant systems, safety cabinets, emergency signage, PPE, and advanced fire detection and alarm systems. With a strong focus on compliance, reliability, and timely delivery, we ensure that all supplied equipment meets international safety standards and contributes to creating secure and protected workplaces. Our commitment to safety excellence allows clients to depend on us for consistent supply, competitive pricing, and exceptional service tailored to their operational needs.

CIVIL AND STRUCTURAL MATERIALS

As a trusted material supplier, we provide a comprehensive range of high-quality civil and structural materials designed to support diverse construction, infrastructure, and industrial projects. Our product portfolio includes structural steel sections, reinforcement bars, cement, aggregates, formwork systems, concrete accessories, geotextiles, and various building chemicals essential for durable and safe construction. We work closely with leading manufacturers to ensure all materials comply with international standards, offering reliable supply, competitive pricing, and timely delivery. With a strong focus on quality, efficiency, and customer satisfaction, we support contractors, developers, and engineering firms in executing their projects with confidence and precision.

CPVC ITEMS

As a reliable supplier of CPVC materials, we provide high-quality piping solutions engineered for superior performance in hot and cold-water applications. Our product range includes CPVC pipes, pipe fittings, ball valves, check valves, unions, elbows, tees, adapters, end caps, solvent cements, and accessories, all manufactured to meet international standards for durability, heat resistance, and corrosion protection. With a strong focus on quality assurance and timely delivery, we support residential, commercial, and industrial projects with dependable CPVC systems that ensure long-term safety, efficiency, and ease of installation. Our commitment is to supply robust, certified CPVC products that add value and reliability to every project.

HARDWARES

As a trusted supplier of high-quality general hardware materials, we provide a comprehensive range of products designed to support diverse industrial, construction, and maintenance operations. Our offerings include premium-grade bolts, nuts, fasteners, aluminum and fiberglass ladders, durable scaffolding systems, and a full selection of reliable hand tools. With a strong focus on quality assurance, timely delivery, and competitive pricing, we ensure that our clients receive hardware solutions that meet the highest standards of safety and performance. Our commitment to excellence enables us to support projects of all scales with efficiency, reliability, and professionalism.

OFFICE FURNITURE & STATIONERY

We provide a comprehensive range of products designed to enhance modern work environments. Our offer includes office chairs, durable workstations and tables, premium curtains, sunscreens, and protective frozen film for glass and surface applications. We ensure that every item meets industry standards for quality, comfort, and long-term performance. With reliable sourcing, timely delivery, and commitment to customer satisfaction, we support our clients in creating professional, efficient, and aesthetically appealing office spaces.

HEALTH & SAFETY

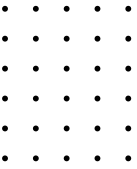

ZMB is committed to providing a safe workplace for all employees, clients, contractors, suppliers/vendors, and visitors in all facilities & project sites. ZMB believes that by joining hands with all clients & its associates, all occupational risks and impacts are preventable.

- **Urge** all employees and visitors of their health, safety and environmental responsibilities and regularly measure their performance; **Assess**,
- identify and eliminate or manage ill health, safety risks and environmental impacts prior to beginning any operation or activity and continue to review such risks and impacts, complying with all applicable legal requirements, laws and regulations that relate to its health & safety hazards and environmental aspects. **Convey health**, safety and environmental objectives and procedures regularly to employees and all affected parties; **Educate employees** and provide resources to maintain job competencies,
- including health, safety and environmental responsibility and accountability; **Outline** and construct facilities utilizing recognized best
- practices to safeguard people, property and the environment; **Manage** and maintain company facilities to assure the health and safety of its own
- employees, clients, suppliers/vendors, contract- thousand visitors; **Mandate** contractors, suppliers/vendors and visitors adhere to the Company's HSE
- policies, procedures and goals; **Be ready** for emergencies and other contingencies and respond promptly and effectively to any incidents or
- accidents resulting from our project operations.
